

**POL VAN DE PERRE**

Director Educational Services and Consulting  
Client Director  
Director ICT Association Management Practice

Pol Van de Perre is an experienced association executive in MCI's Association Management & Consulting Division and is based in Brussels.

During his 20-year career in international non-profit management, Pol has worked predominantly with technology associations in the fields of information technology, document management, large-format digital printing, enterprise computing and pharmaceutical engineering. But also with international student and cultural exchange programmes.

With a degree in education and experiential learning, extensive association management experience and a focus on association technology, Pol's current responsibilities focus on assisting associations in the development of strategy, business planning and implementation of education programmes.

As an association professional, Pol is passionate about the tremendous role associations can play in furthering knowledge and facilitating lifelong learning.
